TITLE 3—THE PRESIDENT
EXECUTIVE ORDER 10207

**ESTABLISHING THE PRESIDENT'S COMMISSION
 ON INTERNAL SECURITY AND INDIVIDUAL
 RIGHTS**

By virtue of the authority vested in me as President of the United States, it is ordered as follows:

1. There is hereby established in the Executive Office of the President a commission to be known as the President's Commission on Internal Security and Individual Rights, which shall be composed of a Chairman, a Vice Chairman, and seven other members, all of whom shall be designated by the President.

2. (a) The Commission shall make a thorough study of the problem of providing for the internal security of the United States and at the same time protecting the rights and freedoms of individuals. The Commission shall consider how this problem should be met by Government action and by private action. Among other things, the Commission shall examine the laws, practices, and procedures concerning protection against treason, sabotage, espionage, and other matters affecting the internal security of the Nation; and the Commission shall consider the operation of and any need for changes in such laws, practices, and procedures. The subjects considered by the Commission shall include the Government employee loyalty program and the Government employee security program. The Commission shall also consider the need for protecting individuals from unwarranted attacks and from unwarranted infringement of their rights and liberties in the name of security.

(b) The Commission shall make a report to the President of its findings and conclusions (to be preceded by such interim reports as it may find desirable), and shall make such recommendations for legislative, administrative, or other action as it deems appropriate.

3. In carrying out its functions under this order, the Commission shall prescribe its own rules of procedure. The Commission may hold such public hearings and hear such witnesses as it may determine, and it may, in connection with matters relating to Federal em-

ployees, examine any and all records and files relating to individual cases in possession of any executive department or agency. All executive departments and agencies of the Federal Government are authorized and directed to cooperate with the Commission in its work and to furnish the Commission such information and assistance, not inconsistent with law, as it may require in the performance of its functions. The Commission shall take appropriate measures to protect the security or confidential character of any security-classified information or information of a confidential nature submitted to it or examined by it.

4. The expenditures of the Commission shall be paid out of an allotment made by the President from the appropriation "Executive Office of the President—Emergencies (National Defense)". Such payments shall be made without regard to the provisions of (a) section 3681 of the Revised Statutes of the United States (31 U. S. C. 672), (b) section 9 of the act of March 4, 1909, 35 Stat. 1027 (31 U. S. C. 673), and (c) such other laws as the President may hereafter specify.

5. Thirty days after the presentation of its final report to the President, the Commission shall cease to exist unless the President shall otherwise direct.

Those parts of this order which provide for the addition of one or more suitable and harmless chemical antimicrobial agents to penicillin troches, for the certification of crystalline penicillin O troches, for a change in the moisture limitation for procaine penicillin bougies from 1 percent to 2 percent, for the optional use of one or more suitable sulfonamides as an ingredient in procaine penicillin and streptomycin in oil and procaine penicillin and dihydrostreptomycin in oil, for a change in the minimum potency for streptomycin from 300 micrograms per milligram to 650 micrograms per milligram, for a change in the minimum potency for dihydrostreptomycin from 600 micrograms per milligram to 650 micrograms per milligram, for certification of a new form of bacitracin ointment, and for certification of bacitracin-tyrothricin ointment, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will benefit by the earliest effective date, and I so find.

That part of this order which provides for a modification of the storage statement required to appear on the containers of aqueous suspensions of procaine penicillin shall become effective 120 days after publication in the FEDERAL REGISTER.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with the interested members of the affected industries and since it would be against public interest to delay providing for the addition of one or more suitable and harmless chemical antimicrobial agents to penicillin troches, for the certification of crystalline penicillin O troches, for a change in the moisture limitation for procaine penicillin bougies from 1 percent to 2 percent, for the optional use of one or more suitable sulfonamides as an ingredient in procaine penicillin and streptomycin in oil and procaine penicillin and dihydrostreptomycin in oil, for a change in the minimum potency for streptomycin from 300 micrograms per milligram to 650 micrograms per milligram, for a change in the minimum potency for dihydrostreptomycin from 600 micrograms per milligram to 650 micrograms per milligram, for certification of a new form of bacitracin ointment, and for certification of bacitracin-tyrothricin ointment.

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 34—SOUTHEASTERN REGION

SUBPART—PIEDMONT NATIONAL WILDLIFE REFUGE, GEORGIA

QUAIL HUNTING

Basis and purpose. It has been determined from observation and reports that there are seasonal surpluses of quail on the Piedmont National Wildlife Refuge that can best be utilized through public hunting and that the regulations heretofore in effect have been unnecessarily restrictive for the conducting of such public hunts.

Inasmuch as the following regulations are relaxations of the present restrictions governing hunting on the Piedmont National Wildlife Refuge, publication prior to the effective date thereof is not required. (60 Stat. 237, 5 U. S. C. 1001 et seq.)

1. Effective immediately upon publication in the FEDERAL REGISTER, §§ 34.131 and 34.132 are hereby revised to read as follows:

§ 34.131 *Quail hunting permitted.* Until further notice the controlled public hunting of quail is permitted in accordance with State laws and regulation at such time and under such restrictions as are determined annually by the officer in charge of the Piedmont National Wildlife Refuge to be in accord with the proper management of wildlife on the Refuge, subject to the provisions of Parts 18 and 21 of this chapter and §§ 34.132 to 34.139, inclusive.

§ 34.132 *Areas open to hunting.* Such areas of the Piedmont National Wildlife Refuge as are determined by annual inventory by the officer in charge of the Refuge to have a surplus population of quail may be opened by such officer in charge by suitably posting such areas.

2. Effective immediately upon publication in the FEDERAL REGISTER, §§ 34.134 to 34.136, inclusive, are deleted and in lieu thereof the following sections are added:

§ 34.134 *Hunting licenses.* Any person who hunts within the Refuge shall be in possession of a valid State hunting license, if such license is required, and

when requested to do so shall exhibit it to any State or Federal officer authorized to enforce the game laws of Georgia or of the United States. Upon request of any such officer, the licensee must also exhibit for inspection all game killed by him or in his possession.

§ 34.135 *Special hunting permits.* Each person hunting on the Refuge shall first have received a permit from the officer in charge of the Refuge specifying the area and period in which the hunting may be conducted, and such other conditions as such officer may require for properly regulating the hunt.

§ 34.136 *Dogs.* Each person hunting for quail on the public shooting grounds will be permitted to take his dogs, not to exceed two in number, upon the Refuge, but such dogs will not be permitted to roam uncontrolled on the public shooting grounds or elsewhere on the Refuge. TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—National Production Authority, Department of Commerce

[NPA Order M-1, as Amended January 22, 1951]

PART 20—IRON AND STEEL

This amendment to Order M-1 is found necessary and appropriate to promote the national defense and is issued pursuant to authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

This amendment affects NPA Order M-1 as amended December 1, 1950, as follows:

(a) It amends §§ 20.1, 20.2, 20.3, 20.4, 20.5, 20.6, 20.7, 20.8, 20.10, 20.11, 20.16; it adds §§ 20.12, 20.13. It renumbers the sections where necessary. As amended, this part (M-1) is revised to read as follows:

- Sec.
- 20.1 What this part does.
 - 20.2 Forms of iron and steel products to which this part applies.
 - 20.3 Required shipment dates.
 - 20.4 Rejection of rated orders (lead time).
 - 20.5 Product limitation for acceptance of rated orders.
 - 20.6 Conditions for acceptance of rated orders.
 - 20.7 Changes in lead time.
 - 20.8 Allotments for further conversion.
 - 20.9 Extension of ratings for further conversion of steel products.
 - 20.10 NPA assistance in placing rated orders.
 - 20.11 Scheduled programs.
 - 20.12 Minimum orders.
 - 20.13 Inventories.
 - 20.14 Application for adjustment or exception.

Sec.

- 20.15 Communications.
- 20.16 Reports.
- 20.17 Records.
- 20.18 Audits and inspection.
- 20.19 Violations.

AUTHORITY: §§ 20.1 to 20.19 issued under sec. 704, Public Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong., sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 20.1 *What this part does.* This part applies particularly to producers of iron and steel and provides rules for placing, accepting, and scheduling rated orders for iron and steel. Its purpose is to provide equitable distribution of rated orders among all iron and steel producers of the particular products in order to make possible maximum production and to reduce to a minimum disruption of normal distribution. It makes provision for required acceptance of rated orders based on a percentage of previous shipments, and provides for allotment, and maximum inventories. It supplements NPA Regulations 1 and 2 (Parts 10 and 11 of this chapter), but only those provisions of Regulations 1 and 2 which are inconsistent with this part are superseded, and all other provisions of those regulations continue to apply to the iron and steel industry.

§ 20.2 *Forms of iron and steel products to which this part applies.* The iron and steel products to which this part applies are set out in Table I at the end of this part. Table I also sets out the lead time (days) and product limitation for acceptance of rated orders. This part also applies to all second quality materials and shearings and material sorted or salvaged from steel scrap and sold for other than remelting purposes.

§ 20.3 *Required shipment dates.* A rated order for iron or steel in any of the forms listed in Column A of Table I must specify shipment on a particular date or in a particular month, which, in no case, may be earlier than required by the person placing the order. The producer of iron or steel must schedule the order for shipment within the requested month as close to the requested shipment date as is practicable considering the need for maximum production.

§ 20.4 *Rejection of rated orders (lead time).* A producer of iron or steel in a form listed in Column A of Table I need not accept a rated order which is received by him less than the number of days (lead time) set forth in Column B of Table I prior to the first day of the month in which shipment is requested, unless specifically directed to accept such order by the National Production Authority.

§ 20.5 *Product limitation for acceptance of rated orders.* Unless specifically directed by NPA, no iron or steel producer shall be required to accept rated orders for shipment from any one producing unit regardless of location in any one month in excess of the percentages set forth in Column C of Table I, of his average monthly shipments of the products listed in said column, as made by him during the period from January 1, 1950, through August 31, 1950. Where

no percentage limitation is set forth as to any product, it is expected that the amount of such product to be called for by rated orders will be relatively small.

§ 20.6 Conditions for acceptance of rated orders. Unless otherwise specifically directed by the National Production Authority, and subject to the provisions of Part 11 of this chapter (NPA Regulation 2), each iron or steel producer shall be required to accept rated orders calling for shipment in any one month from any one of his producing units regardless of location, of products listed in Column A of Table I up to the amount of the percentages listed in Column C of Table I of his average monthly shipments of such products from that producing unit during the period from January 1, 1950, to August 31, 1950. Where no percentage is listed in Column C, in regard to any iron or steel product, each iron or steel producer shall be required to accept all rated orders served upon him, subject to the provisions of Part 11 of this chapter (NPA Regulation 2), unless otherwise specifically directed by the National Production Authority.

§ 20.7 Changes in lead time. (a) If an iron or steel producer would have an open space on his production schedule created by the difference between the lead time of forty-five days as established by this part as originally issued or as subsequently amended, and a longer lead time as established by § 20.4, he shall continue to accept rated orders to fill such open space on his production schedule, on the basis of a lead time of forty-five days, before he applies the newly established longer lead time. In filling such open space on his production schedule, as above referred to, an iron or steel producer shall be governed by the product limitation percentage appearing in Column C of Table I.

Example: Under the previously established lead time of 45 days, a steel producer would, up to December 17, 1950, accept DO rated orders for shipment in February 1951. Where a lead time has been increased to 120 days, he would, up to January 31, 1951, accept DO rated orders for shipment in June 1951. In the application of this example, the steel producer would continue to accept DO rated orders for shipment in March and April 1951, on a 45-day lead time until he had arrived in any one month at the product limitation percentage of that product as set forth in Column C, of Table I. Thereafter, he would conform to the new lead time of 120 days for shipment in the succeeding months.

(b) In the example in paragraph (a) of this section, if the product limitation percentage under Column C of Table I as to that particular iron or steel product has been increased from 5 percent to 10 percent, the iron or steel producer should accept DO rated orders up to the amount of the new product limitation percentage figure, commencing with shipments for the month of March, 1951, and should continue at that new figure thereafter.

§ 20.8 Allotments for further conversion. A steel producer who buys from another steel producer a steel product

listed under the heading "Steel Mill Products" in Column A of Table I (herein called "steel mill products"), and by further processing converts, for resale, the purchased steel into another steel mill product is engaged in further conversion. For the purpose of this section, the steel producer who sells a steel mill product for further conversion shall be called a producer supplier and the steel producer engaged in further conversion shall be called a converter. Each producer supplier shall make a monthly allotment of his production of each steel mill product that remains after shipments on DO ratings and NPA Directives to each of his converter customers. Such monthly allotment shall be at least equal to that percentage of his available production so remaining, as the producer supplier's shipments to each converter customer bore to his total shipments, during the base period, from January 1, 1950, through September 30, 1950. A producer supplier must accept orders placed by his converter customer up to the limit of his allotment: *Provided, however,* That such orders are placed in accordance with the lead times in Column B of Table I. Shipments under such allotments shall be made in addition to shipments to the same converter customer pursuant to authorized extension of DO ratings. Orders placed under the provisions hereof must be for substantially the same product as was supplied to each such converter during such period, except for minor variations in size and design. In determining the amount of the monthly allotments, adjustments may be made by a producer supplier, with the consent of the converter involved, to provide for any abnormal situations which affect any steel products.

§ 20.9 Extension of ratings for further conversion of steel products. All DO ratings extended for the purpose of further conversion of steel products shall have the symbol FC added to the two-digit designation following the prefix DO on the order.

§ 20.10 NPA assistance in placing rated orders. Any person who is unable to place a rated order for iron or steel due to the limitations imposed by §§ 20.5 and 20.6 should apply to the NPA, Iron and Steel Division, Reference Order M-1, specifying the producers who refused to accept the order. The NPA will arrange to assist him in locating other sources of supply.

§ 20.11 Scheduled programs. NPA will from time to time approve scheduled programs calling for the production and delivery of iron and steel products for stated purposes, over specified periods of time. Upon approval of major programs of this type, supplements to this part will be issued describing such programs and specifying the manner in which they are to be carried out by the iron and steel industry. Thereafter, directives will be issued to individual concerns establishing schedules for their participation in such programs. Such directives shall be complied with by the recipients in accordance with the terms thereof, unless otherwise directed by NPA.

§ 20.12 Minimum orders. The minimum orders that may be placed with DO ratings or under NPA directives are set out in Table II at the end of this part. The minimum quantity for each size and grade of any item for shipment at any time to any one destination is listed opposite the appropriate item. If all other requirements of this part have been met, orders for such minimum quantities shall be accepted.

§ 20.13 Inventories. In addition to the provisions of Part 10 of this chapter (NPA Reg. 1), relating to Inventory Control, it is considered that a more exact requirement applying to users of iron or steel products is necessary. No person obtaining iron or steel products for use in manufacture, processing or construction, may receive or accept delivery of a quantity of iron or steel products if his inventory is, or by such receipt would become, in excess of that necessary to meet his deliveries or supply his services on the basis of his scheduled method and rate of operation pursuant to this part during the succeeding 45-day period, for steel products, gray and malleable iron castings, and 30-day period for pig iron, or in excess of a practicable minimum working inventory (as defined in NPA Reg. 1), whichever is less. For the purpose of this section, iron and steel products listed in Table I in which only minor changes or alterations have been effected shall be included in inventory. NPA Reg. 1 will apply to iron and steel products except as modified by this section. Said 45-day limitation does not apply to persons who order structural steel for use in construction (including buildings, bridges and other structures of a like type) and who order it delivered cut to the specifications required for a specific project and who normally keep such steel segregated for the specific project. Instead, no such person may accept delivery of such steel more than 45 days before it is scheduled to be fabricated or, if it is not to be further fabricated, before it is scheduled to be assembled.

§ 20.14 Application for adjustment or exception. Any person affected by any provision of this part may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, or because any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or its enforcement against him would not be in the interest of the national defense or in the public interest. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this part, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

§ 20.15 Communications. All communications concerning this part shall be addressed to National Production Authority, Washington 25, D. C., Ref: M-1.

§ 20.16 *Reports.* Persons subject to this part shall make such records and submit such reports to the NPA as it shall require, subject to the terms of the Federal Reports Act (P. L. 831, 77 Cong., 5 U. S. C. 139-139F). All reporting and record-keeping requirements of this part have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. In accordance with this section all steel producers are required to report on "NPAF-13—Steel Producers Report of Orders Accepted for DO ratings and programs" the orders accepted bearing DO ratings and orders resulting from programs made effective by NPA directives; and on "NPAF-17—Steel Producers' Monthly Report of Shipments and Past Due Orders" the record of the shipments and past due orders by DO ratings and programs made effective by NPA directives.

§ 20.17 *Records.* Each person participating in any transaction covered by this part shall retain in his possession for at least two years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this part have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

§ 20.18 *Audit and inspection.* All records required by this part shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the NPA.

§ 20.19 *Violations.* Any person who wilfully violates any provisions of this part or any other order or regulation of NPA or wilfully conceals a material fact or furnishes false information in the course of operation under this part is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

This part as amended shall take effect on January 22, 1951.

[NPA Order M-22, as Amended Jan. 23, 1951]

PART 26—ALUMINUM

SUBPART C—DISTRIBUTION OF ALUMINUM SCRAP

This amendment to NPA Order M-22 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950. In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order has been rendered impracticable due to the necessity for immediate action and because the order affects a large number of different trades and industries.

This amendment affects NPA Order M-22 as follows:

It amends §§ 26.52 (d), 26.52 (e), and 26.56 (a); a new section, 26.58 is added; §§ 26.58, 26.59, 26.60, and 26.61 are redesignated to be §§ 26.59, 26.60, 26.61, 26.62; a new effective date is added, Lists A and B are designated §§ 26.63 and 26.64 respectively.

As amended this part reads as follows:

- Sec.
- 26.51 What this subpart does.
- 26.52 Definitions.
- 26.53 Restrictions on use of aluminum scrap.
- 26.54 Restrictions on distribution of aluminum scrap.
- 26.55 Segregation of aluminum scrap.
- 26.56 Restrictions on toll agreements.
- 26.57 No acquisition or delivery in violation of order.
- 26.58 Request for designation as approved user of aluminum scrap.
- 26.59 Applications for adjustment.
- 26.60 Records and reports.

- Sec.
- 26.61 Communications.
- 26.62 Violations.
- 26.63 List A—Aluminum smelters.
- 26.64 List B—Aluminum fabricators.

AUTHORITY: §§ 26.51 to 26.64 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 26.51 *What this subpart does.* The primary purpose of this subpart is to regulate the segregation, acceptance, delivery and distribution (whether on purchase, toll agreement or otherwise) of aluminum scrap. The subpart also prohibits undue accumulations of such scrap.

§ 26.52 *Definitions.* As used in this subpart:

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons and

includes any agency of the United States or any other government.

(b) "Aluminum scrap" means all materials or objects which are the waste or by-product of industrial fabrication, or which have been discarded on account of obsolescence, failure or other reason, the principal ingredient of which by either weight or volume is metallic aluminum either of domestic generation or imported in either loose or pig form, and shall include all types and grades of aluminum residues, such as drosses, skimmings, fines, grindings, sawings and buffings: *Provided, however*, That the recoverable metallic aluminum content, as determined by fire assay, hydrogen evolution or other method of comparable efficiency, constitutes 50 percent or more by weight of such residues.

(c) "Producer" means the following prime producers: Aluminum Company of America, Reynolds Metals Company, and Kaiser Aluminum and Chemical Corporation; and such other producers of metallic aluminum who may be designated by the National Production Authority from time to time.

(d) "Approved smelter" means any person whose name appears in § 26.63 List A and also any person whose name is added to said List following a determination by the National Production Authority that he is qualified as an "Approved smelter" on the basis of the facilities and technical resources available to him which are mentioned in § 26.58.

(e) "Approved fabricator" means any independent fabricator whose name appears in § 26.64 List B and also any person whose name is added to said List following a determination by the National Production Authority that he is qualified as an "Approved fabricator" on the basis of the facilities and technical resources available to him which are mentioned in § 26.58.

(f) "Dealer" means any person regularly engaged in the business of buying and selling aluminum scrap.

(g) "Generator of aluminum scrap" means any person who in manufacture or fabrication produces aluminum scrap.

§ 26.53 *Restrictions on use of aluminum scrap.* (a) Unless specifically authorized in writing by the National Production Authority, no person, other than a producer, approved smelter or approved fabricator shall melt, reprocess, smelt or otherwise use aluminum scrap: *Provided, however*, That a foundry may remelt the gates, sprues, risers and defective castings resulting from its own operations if in so doing it does not debase or contaminate the material, and if, in acquiring aluminum, it reduces the requirements contained in its orders to its suppliers by an amount equal to the anticipated recoverable metal; a foundry may also accept on a return a new casting of its own production which was found to be defective, or use a casting that was spoiled in machining, and recast such castings to replace castings of the same alloy.

(b) The National Production Authority may, from time to time, issue directives: (1) To producers, smelters, fabricators and others who are permitted to

melt or use aluminum scrap, which directives may specify the exact alloy or alloys which must be produced therewith and the amount of such alloy or alloys, and may prohibit the production of certain alloys; (2) prescribing the amount of secondary ingot that all fabricators (both independent and integrated) will be required to blend with primary ingot in the production of fabricated shapes; and (3) designating certain smelters who will be the only smelters permitted to receive and melt scrap of specified alloys or who will be the only smelters permitted to produce specified alloys. Directives with respect to the foregoing may contain directions as to the production schedule of the persons to whom they are issued.

§ 26.54 *Restrictions on distribution of aluminum scrap—(a) Delivery by scrap owners and originators.* Except as provided in § 26.53 (a) or as specifically authorized in writing by the National Production Authority, any person (other than a producer, approved smelter, approved fabricator or dealer) who owns or originates any aluminum scrap shall deliver such scrap to any producer, approved smelter, approved fabricator or dealer and shall not dispose of such scrap in any other way.

(b) *Time of delivery.* Except as provided in § 26.53 (a) or as specifically authorized in writing by the National Production Authority, any person who generates or holds any aluminum scrap shall deliver such scrap to any producer, approved smelter, approved fabricator or dealer at intervals not longer than required to accumulate a minimum carload or at intervals not exceeding 60 days, whichever shall first occur.

(c) *Time of delivery by dealers.* Except as specifically authorized in writing by the National Production Authority, every dealer shall deliver any aluminum scrap (whether or not deemed to be usable in its "as is" form) to any producer, approved smelter or approved fabricator at intervals not longer than required to accumulate a minimum carload or at intervals not exceeding 60 days, whichever shall first occur: *Provided, however*, That any dealer may sell any such scrap to another dealer, if, in the regular course of business, he does not collect sufficient scrap to make it practicable for him to sell directly to a producer, approved smelter or approved fabricator.

§ 26.55 *Segregation of aluminum scrap.* (a) Any generator of aluminum scrap must segregate such scrap by alloy and shall not mix scrap of one alloy with any other alloy or material: *Provided, however*, That this segregation requirement does not apply to skimmings, drosses, grindings, buffings and sawings. (b) Any dealer receiving aluminum scrap in segregated form must maintain such segregation.

§ 26.56 *Restrictions on toll agreements.* (a) No aluminum scrap shall be delivered or received pursuant to any existing or future toll, conversion or repurchase agreement or any similar arrangement unless the person delivering or owning the scrap or the person for whose benefit the processing of the scrap

will be effected has received approval in writing from National Production Authority for such transaction: *Provided, however*, That genuine aluminum billet butts and other mill scrap generated by an extruded shape manufacturer may be returned to an extrusion ingot supplier for conversion into extrusion ingots.

(b) Persons requesting such approval shall file with the National Production Authority a letter setting forth: the names and addresses of the parties to any existing or proposed toll, conversion or repurchase agreement; the kind, grade and form of the scrap involved; the tonnage of the scrap and the estimated tonnage of the aluminum resulting; the estimated rate and dates of delivery of such aluminum; the length of time such agreement or other similar agreement between the same parties has been in force; the duration of the agreement; the purpose for which such aluminum is to be used; and such other information as the applicant may wish to submit.

§ 26.57 *No acquisition or delivery in violation of order.* No person shall acquire or deliver aluminum scrap or products made therefrom if he knows or has reason to believe that such material has been or will be used in violation of this or of any other order of the National Production Authority: *Provided, however*, That any producer, approved smelter or approved fabricator may acquire aluminum scrap for any use permitted by this subpart whether or not the person from whom it is acquired has complied with this subpart.

§ 26.58 *Request for designation as approved user of aluminum scrap.* (a) Any smelter or fabricator who in the course of his regular operations melts, reprocesses, smelts or otherwise uses aluminum scrap may request the National Production Authority to add his name to § 26.63 List A or § 26.64 List B, as the case may be. The names of applicants found to be qualified will be added to the appropriate list.

(b) Any person other than a smelter or a fabricator who uses aluminum scrap in his regular operations (such as an aluminum foundry, chemical plant, steel mill, etc.) may request the National Production Authority for an authorization to use aluminum scrap in connection with such operations. Any person determined by the National Production Authority to be qualified will be specifically authorized to use certain types of aluminum scrap for stated purposes.

(c) Any request under paragraph (a) or (b) of this section should be made by letter addressed to the National Production Authority stating: (1) The length of time the applicant has used aluminum scrap in his operations; (2) the nature of applicant's operations involving the use of such scrap and a description of the product that will result therefrom; (3) a description of the plant facilities and equipment available to applicant for preparing, maintaining segregation of, melting, smelting, fabricating or otherwise processing such scrap; (4) a description of the facilities available to applicant for metallurgical or chemical controls over such scrap, such as laboratory and physical testing

equipment, and spectrographic controls; (5) general information regarding the experience and qualifications of personnel engaged in the preparation, and metallurgical or chemical controls over the use of such scrap; and (6) such other information as the applicant may wish to submit.

§ 26.59 Applications for adjustment. Any person affected by any provision of this subpart may file a request for adjustment or exception upon the ground that any provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. All such requests shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M-22. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this subpart, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

§ 26.60 Records and reports. (a) Each person participating in any transaction covered by this subpart shall retain in his possession for at least two years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this subpart have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this subpart shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the National Production Authority.

[NPA Order M-14 as Amended Jan. 23, 1951]

PART 32—NICKEL

This amendment to NPA Order M-14 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950. In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order has been rendered impracticable due to the necessity for immediate action and because the order affects a large number of different trades and industries.

This amendment affects NPA Order M-14 as follows:

A new paragraph (f) is added to § 32.2; § 32.3 is amended, new §§ 32.6 and 32.14 are added; §§ 32.6, 32.7, 32.8, 32.9, 32.10, 32.11, and 32.12 are redesignated to be §§ 32.7, 32.8, 32.9, 32.10, 32.11, 32.12, and 32.13, respectively, and all references are changed accordingly.

As amended, this part reads as follows:

Sec.	
32.1	What this part does.
32.2	Definitions.
32.3	Nickel forms and products to which this part applies.
32.4	Application of part.
32.5	Use of nickel.
32.6	Prohibited uses of nickel.
32.7	Maintenance, repair and operating supplies.
32.8	Exemptions.
32.9	Inventories.
32.10	Application for adjustments.
32.11	Records and reports.
32.12	Communications.
32.13	Violations.
32.14	List A.

AUTHORITY: §§ 32.1 to 32.14 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong., sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 32.1 What this part does. The purpose of this part is to describe how the primary nickel remaining after allowing for the requirements of national defense may be distributed to the civilian economy. It is the policy of the National Production Authority that primary nickel, not required to fill rated orders, shall be distributed equitably through normal channels of distribution, and that due regard shall be given by sup-

pliers to the needs of new and small business. It is the intent of this part that other materials which are not in short supply will be substituted for nickel wherever possible.

§ 32.2 Definitions. As used in this part:

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons and includes any agency of the United States or any other government.

(b) "Base period" means the six months period ending June 30, 1950.

(c) "Consume" means to melt, alloy, mix, electrodeposit, process or otherwise alter nickel as defined by this order by physical or chemical means.

(d) "Maintenance" means the minimum upkeep necessary to continue a building, machine, piece of equipment or facility in sound working condition, and "repair" means the restoration of a building, machine, piece of equipment or facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like: *Provided, however*, Neither maintenance nor repair includes the improvement of any such item with material of a better kind, quality or design.

(e) "Operating supplies" means any forms of nickel listed in § 32.3 which are normally carried by a person as operating supplies according to established accounting practice and are not included in his finished product, except that materials included in such product which are normally chargeable to operating expense may be treated as operating supplies.

(f) "Manufacture" means to put into process, machine, fabricate, electroplate, clad, or otherwise alter materials by physical or chemical means.

§ 32.3 Nickel forms and products to which this part applies. (a) The word "nickel" as used in this part means only the following forms of primary nickel: electrolytic nickel, ingots, pig, rolled and cast anodes, shot, oxides, salts, chemicals and residues derived directly from new nickel including residues containing nickel derived as a by-product from copper refinery operations.

(b) "Stainless Steel", as used in this part, means chromium-nickel iron base alloys, wrought or cast, containing 6 percent to 22 percent inclusive of nickel, commonly referred to as "austenitic chromium-nickel stainless steel".

(c) "High Nickel Alloy", as used in this part, means ferrous and non-ferrous alloys, wrought or cast, containing more than 22 percent nickel.

(d) "Nickel Silver", as used in this part, means non-ferrous alloys, wrought or cast, containing 8 percent or more nickel.

(e) "Nickel Plating", as used in this part, means all plating regardless of plating procedure.

§ 32.4 Application of part. Subject to the exemptions stated in § 32.8, this part applies to all persons who consume nickel in manufacture, processing or construction, or who use nickel for maintenance, repair or operating supplies. This part does not apply to suppliers of nickel in the forms listed in § 32.3.

§ 32.5 Use of nickel. Subject to the exemptions stated in § 32.8, or unless specifically directed by the National Production Authority, no person shall consume in manufacture, processing or construction during the first calendar quarter of 1951 a quantity of nickel by weight in excess of 65 percent of his average quarterly consumption of nickel for such purposes during the base period: *Provided, however*, That his consumption of nickel in any one month shall not exceed 40 percent of the permitted use during said quarter.

§ 32.6 Prohibited uses of nickel. (a) Commencing on March 1, 1951, no person shall: (i) Consume nickel as defined in § 32.3, secondary nickel, or nickel bearing scrap containing 6 percent or more nickel in the production of any Nickel Silver or Nickel Plating items included in § 32.14 List A except as indicated therein; or (ii) use any such forms of nickel or any alloys containing nickel in the manufacture of any of said items included in § 32.14 List A except as indicated therein. Notwithstanding the foregoing, any such items may be completed if they were in the process of production or manufacture on or before February 28, 1951 and such completion is effected not later than April 30, 1951. Commencing on April 1, 1951, no person shall: (i) Consume nickel as defined in § 32.3, secondary nickel, or nickel bearing scrap containing 6 percent or more nickel in the production of any Stainless Steel or High Nickel Alloy items included in § 32.14 List A except as indicated therein; or (ii) use any such forms of nickel or any alloys containing nickel in the manufacture of any of said items included in § 32.14 List A except as indicated therein. Notwithstanding the foregoing, any such items may be completed if they were in the process of manufacture or production on or before March 31, 1951 and such completion is effected not later than May 31, 1951. Any items included in § 32.14 List A which are completed, in the case of Nickel Silver and Nickel Plating items not later than April 30, 1951, and in the case of Stainless Steel and High Nickel Alloy items not later than May 31, 1951, may be sold after said dates, respectively.

(b) No person may use in construction any Stainless Steel, High Nickel Alloy, Nickel Silver or Nickel Plating for any item included in § 32.14 List A after May 31, 1951: *Provided, however*, That this prohibition will not apply to the use of said forms of nickel in any such item if its manufacture or processing was completed within the time limits specified by this section.

(c) Commencing on March 1, 1951, no person may consume or use: (i) in the manufacture of any item, including components and parts therefor, a greater quantity of nickel or an alloy containing a greater percentage of nickel than is necessary for the functional operation of such item; or (ii) any nickel or nickel bearing materials in the manufacture of any item for decorative or ornamental purposes.

(d) The prohibitions of this section apply notwithstanding the provisions of Part 11 of this chapter (NPA Reg. 2) with respect to the filling of rated or-

ders, and are not affected by any of the exemptions stated in § 32.8.

§ 32.7 Maintenance, repair and operating supplies. Unless specifically directed by the National Production Authority, no person shall consume for maintenance, repair or operating supplies during the calendar quarter commencing on January 1, 1951, and each calendar quarter thereafter, a quantity by weight in excess of his average quarterly consumption of nickel for such purposes during the base period.

§ 32.8 Exemptions. (a) The consumption of nickel to fill an order that is rated under the priorities system established by NPA Reg. 2, or to meet any mandatory order of the National Production Authority, is permitted in addition to the consumption of nickel authorized by the provisions of §§ 32.5 and 32.7.

(b) Nickel acquired by a rated order, or to meet a scheduled program of the National Production Authority, may be used in addition to the quantities permitted by the provisions of §§ 32.5 and 32.7.

(c) The provisions of §§ 32.5 and 32.7 do not apply to persons who use less than 250 lbs. of nickel during any calendar quarter: *Provided, however*, That persons who by reason of the provisions of § 32.5 would be permitted to use less than 250 lbs. during any calendar quarter may use during such period a quantity up to 250 lbs.

§ 32.9 Inventories. In addition to the provisions of Part 10 of this chapter (NPA Reg. 1), relating to Inventory Control, it is considered that a more exact requirement applying to consumers of nickel is necessary. No person obtaining nickel for use in manufacture, processing or construction, or for maintenance, repair, or operating supplies, may receive or accept delivery of a quantity of nickel if his inventory is, or by such receipt would become, in excess of that necessary to meet his deliveries or supply his services on the basis of his scheduled method and rate of operation pursuant to this part during the succeeding 30 day period, or in excess of a "practicable minimum working inventory" (as defined in Part 10 of this chapter (NPA Reg. 1)), whichever is less. For the purpose of this section, the forms of nickel listed in § 32.3 in which only minor changes or alterations have been effected shall be included in inventory. Part 10 of this chapter (NPA Reg. 1) will apply to nickel except as modified by this section.

§ 32.10 Application for adjustments. Any person affected by any provision of this part may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, or because any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this part, considera-

tion will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing and shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

§ 32.11 *Records and reports.* (a) Each person participating in any transaction covered by this part shall retain in his possession for at least two years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this part have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this part shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the National Production Authority.

(c) Persons subject to this part shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act.

(Pub. Law 831, 77th Cong., 5 U. S. C. 139-139F)

§ 32.12 *Communications.* All communications concerning this part shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M-14.

§ 32.13 *Violations.* Any person who wilfully violates any provisions of this part or any other part or regulation of the National Production Authority or wilfully conceals a material fact or furnishes false information in the course of operation under this part is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

§ 32.14 *List A.* The use of the forms and products of nickel defined in § 32.3 in the items listed below is prohibited except to the extent permitted by this part, or as specified on this list.

PART 37—CHEMICALS

LIMITATION FOR DO RATED ORDERS

This order is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this order there has been consultation with industry representatives and consideration has been given to their recommendations. However, consultation with representatives of all chemical industries and trade associations affected, in advance of the issuance of this order, has been rendered impracticable due to the necessity of immediate action and the fact that it affects a large number of different industries.

- Sec. 37.1 What this part does.
37.2 Definitions.
37.3 Chemicals to which this order applies.
37.4 Required shipment dates.
37.5 Rejection of rated orders.
37.6 Limitation for acceptance of rated orders.
37.7 NPA assistance in placing rated orders.
37.8 Adjustments and exceptions.
37.9 Communications.
37.10 Records.
37.11 Audit and inspection.
37.12 Reports.
37.13 Violations.

AUTHORITY: §§ 37.1 to 37.13 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 37.1 *What this part does.* This part applies particularly to producers of each chemical listed in Schedule A appearing at the end of this part and provides rules for placing, accepting and scheduling rated orders for such chemical. Its purpose is to provide equitable distribution of rated orders among all producers thereof, in order to make possible maximum production and to reduce to a minimum disruption of normal distribution. It supplements Part 11 of this chapter (NPA Regulation 2) but only those provisions of Regulation 2 which are inconsistent with this part are superseded and all other provisions of Regulation 2 continue to apply to the chemical industry.

§ 37.2 *Definitions.* As used in this part:

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons

No. 18—3

and includes agencies of the United States or any other government.

(b) "Producer" means any person engaged in the business of producing for sale any chemical listed in Schedule A.

(c) "Schedule A" means the list of chemicals marked "Schedule A" appearing at the end of this part.

(d) "NPA" means National Production Authority.

§ 37.3 *Chemicals to which this part applies.* This part applies only to the chemicals listed in Schedule A, as amended from time to time. It is the intention of NPA that if and when the need arises, additional chemicals will be added to Schedule A.

§ 37.4 *Required shipment dates.* A rated order for any chemical listed in Schedule A must specify shipment on a particular date or dates or during a particular month, which in no case may be earlier than required by the person placing the order. The producer of such chemical must schedule the order for shipment within the requested month as close to the requested shipment date as is practicable, considering the need for maximum production.

§ 37.5 *Rejection of rated orders.* Unless otherwise specifically directed by NPA, a producer need not accept a rated order for any chemical listed in Schedule A which is received by him less than the number of days (lead time), if any, set forth in Schedule A opposite the name of such chemical, prior to the first day of the month in which shipment is requested. Rated orders for any such chemical as to which no such period of time is specified in Schedule A are not subject to the provisions of this section.

§ 37.6 *Limitation for acceptance of rated orders.* Unless otherwise specifically directed by NPA, no producer shall be required to accept rated orders for shipment of any chemical listed in Schedule A in any one month in excess of the quantity of such chemical determined as in Schedule A provided.

§ 37.7 *NPA assistance in placing rated orders.* Any person who is unable to place a rated order for any chemical listed in Schedule A due to the limitation imposed by § 37.6 should apply to NPA, Ref: Order M-32, specifying the producers who refused to accept the order. NPA will arrange to assist him in locating sources of supply.

§ 37.8 *Adjustments and exceptions.* Any person affected by any provision of this part may file with NPA a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In considering requests for adjustment which claim that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would

impair the defense program. Each such request shall be in writing and shall set forth all pertinent facts, the nature of the relief sought and the justification therefor.

§ 37.9 *Communications.* All communications concerning this part shall be addressed to National Production Authority, Washington 25, D. C., Ref: M-32.

§ 37.10 *Records.* Each person participating in any transaction covered by this part shall retain in his possession for at least two years records of receipts, deliveries, inventories and use, in sufficient detail to permit an audit that determines for each transaction whether the provisions of this part have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

§ 37.11 *Audit and inspection.* All records required by this part shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

§ 37.12 *Reports.* Persons subject to this part shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (Pub. Law 831, 77th Cong., 5 U. S. C. 139-139F).

§ 37.13 *Violations.* Any person who wilfully violates any provision of this part or any other order or regulation of NPA or wilfully conceals a material fact or furnishes false information in the course of operation under this part is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this part have been approved by the Bureau of Budget in accordance with the Federal Reports Act of 1942.

This order shall take effect on January 23, 1951.

§ 37.31 *What this order does.* This order applies particularly to producers and distributors of chlorine and provides rules for placing, accepting and scheduling rated orders for chlorine and orders for chlorine essential to public health. Its purposes are to provide equitable distribution of rated orders among all producers and distributors of chlorine, and to provide for filling public health needs for chlorine, in order to make possible maximum production of chlorine by reducing to a minimum disruption of normal distribution. This order supplements Part 11 of this chapter (NPA Regulation 2) but only those provisions of Part 11 which are inconsistent with this order are superseded, and all other provisions of Part 11 continue to apply to the chlorine industry.

§ 37.32 *Definitions.* As used in this order.

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons and includes agencies of the United States or any other government.

(b) "Chlorine" means the element chlorine whether in gaseous or liquid form.

(c) "Producer" means any person who produces chlorine for sale.

(d) "Distributor" means any person who buys and receives from a producer chlorine and who resells or holds for resale such chlorine (including a repacker of chlorine).

(e) "Public health chlorine" means chlorine which is essential for purification of water for human consumption

and use (exclusive of chlorine used for swimming pools) or for treatment of sewage, in order to protect the public health, welfare and safety.

(f) "Marketable production" means that portion of chlorine which remains for sale in the hands of a producer after deducting the amount of chlorine which he consumes in his other operations, and after deducting the chlorine which he sells and delivers by pipeline.

(g) "NPA" means National Production Authority in the Department of Commerce.

§ 37.33 *Required shipment date.* A rated order for chlorine must specify shipment on a particular date or during a particular month which in no case may be earlier than required by the person placing the order. The producer must schedule the order for shipment within the requested month as close to the shipment date as is practicable considering the need for maximum production. The distributor must schedule the order for shipment within the requested month as close to the shipment date as is practicable.

§ 37.34 *Rejection of rated orders.* Unless otherwise directed by NPA: A producer need not accept a rated order that is received less than 15 days prior to the first day of the month in which shipment is requested. A distributor need not accept a rated order that is received less than 20 days prior to the first day of the month in which shipment is requested.

§ 37.35 *Limitations for acceptance of rated orders.* Unless otherwise directed by NPA:

(a) No producer shall be required to accept rated orders for shipment in any month of a total tonnage of chlorine in excess of 10 percent of his scheduled marketable production for such month for the type of container required for shipment.

(b) No producer or distributor shall be required to accept rated orders for an amount which is less than the minimum unit quantity sold by such producer or distributor in accordance with his standard practice.

(c) No distributor shall be required to accept rated orders for shipment in any month of a total tonnage of chlorine in excess of 10 percent of the chlorine available to him during such month for the type of container required for shipment.

§ 37.36 *Orders for public health chlorine.* (a) In the interests of national defense, it is found necessary to provide for supplies of chlorine to all persons, whether public or private, engaged directly in the business or operation of purifying water for human consumption and use, or of treatment of sewage, where the use of chlorine is essential to public health.

(b) Every producer and distributor must accept and schedule for shipment each month, commencing March 1, 1951, orders for public health chlorine which may be placed with him by consumers thereof who were supplied with chlorine by such producer or distributor during the year 1950: *Provided, however,* That the total amount of public health chlorine by weight required by this section to

be delivered to each such consumer during 1951 need not exceed the total amount of chlorine delivered by the producer or distributor to such consumer during the year 1950. In any event, the amount of public health chlorine so required to be delivered in any month need not exceed 25 percent of such total amount delivered during the year 1950.

(c) Deliveries under orders for public health chlorine are required to be scheduled and made in addition to deliveries required to be made under rated orders pursuant to Part 11 of this chapter (NPA Regulation 2) and to meet other mandatory orders of NPA, but are not to be included among deliveries made under rated orders for the purpose of determining the obligations of producers and distributors under § 37.35.

§ 37.37 *Sources of supply of public health chlorine.* Consumers of public health chlorine shall place all orders therefor for delivery in 1951 with the producers or distributors from which they received their supplies of chlorine during the year 1950 unless they prefer and are able without the assistance of this order to purchase their chlorine needs elsewhere.

§ 37.38 *Certification of orders.* Every order for public health chlorine pursuant to this order shall contain a certification thereon or on a separate paper attached thereto, as follows:

Certified under NPA Order M-31.

Every such certificate constitutes a representation to the seller and to NPA that the chlorine called for in such order is required and will be used exclusively for the purification of water for human consumption and use (other than for a swimming pool) or for treatment of sewage. Every such certificate shall be duly signed by the purchaser.

§ 37.39 *Use of chlorine obtained upon certified order.* All chlorine obtained under purchase orders certified as provided in § 37.38 shall be used by the deliverer exclusively for the purpose or purposes set forth in that section.

§ 37.40 *Delivery dates and rejection of orders for public health chlorine.* Unless otherwise directed by NPA: An order for public health chlorine must specify shipment on a date or during a particular month which in no case may be earlier than required by the person placing the order. A producer need not accept an order for public health chlorine that is received less than 15 days prior to the first day of the month in which shipment is requested. A distributor need not accept an order for public health chlorine that is received less than 20 days prior to the first day of the month in which shipment is requested.

§ 37.41 *Supply of public health chlorine to distributors.* (a) In all instances where consumers of public health chlorine purchase their supplies of chlorine for 1951 from a distributor as provided in § 37.36, any producer who supplied any such distributor with chlorine during 1950 must accept and schedule for shipment each month during 1951, commencing March 1, 1951, orders of the distributor for chlorine in at least the

quantity of public health chlorine which the distributor is required to deliver or has delivered to the consumer (his customer) unless that quantity is less than the smallest practicable delivery unit, in which event the quantity shall be such unit: *Provided, however*, That the total amount of chlorine required by this section to be delivered to the distributor need not exceed the total amount delivered to him by the producer in 1950. In any event, the amount of chlorine so required to be delivered to the distributor in any month need not exceed 25 percent of such total amount delivered during the year 1950.

(b) Every order of the distributor referred to in this section shall contain a certification thereon or on a separate paper attached thereto as follows:

Certified under NPA Order M-31.

Every such certificate constitutes a representation to the seller and to NPA that the distributor delivered or will deliver the chlorine called for in such order of the distributor, to a consumer whose certificate in accordance with § 37.33 has been or will be, prior to such delivery, received by the distributor. Every such certificate of the distributor shall be duly signed by the distributor.

(c) All orders of distributors pursuant to this section are subject to the requirements of paragraph (c) of § 37.36 and of § 37.40 and for the purpose of said sections shall be deemed to be direct orders for public health chlorine.

§ 37.42 *NPA assistance in placing rated orders.* Any person who is unable to place a rated order for chlorine due to the limitations imposed by § 37.35 or who is unable to place an order for chlorine as provided in § 37.36 or § 37.41 should apply to NPA, Washington 25, D. C., Ref: M-31, specifying the producers or distributors who refused to accept the order. NPA will arrange to assist him in locating sources of supply.

§ 37.43 *Adjustments and exceptions.* Any person affected by any provision of this order may file with NPA a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period or that such provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In considering requests for adjustment which claim that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each such request shall be in writing and shall set forth all pertinent facts, the nature of the relief sought and the justification therefor.

§ 37.44 *Communications.* All communications concerning this order shall be addressed to National Production Authority, Washington 25, D. C., Ref: M-31.

§ 37.45 *Records, audit, inspection and reports.* (a) Each person participating in any transaction covered by this order shall retain in his possession for at least two years records of receipts, deliveries, inventories and use, in sufficient detail to permit an audit that determines for each transaction whether the provisions of this order have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

(c) Persons subject to this order shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act (Pub. Law 831, 77th Cong., 5 U. S. C. 139-139F).

§ 37.46 *Violations.* Any person who willfully violates any provision of this order or any other order or regulation of NPA or willfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of Budget in accordance with the Federal Reports Act of 1942.

This order shall take effect on January 23, 1951.

Chapter II—Economic Stabilization Agency

[Ceiling Price Reg. 2]

PART 313—CATTLEHIDES, KIPS AND CALFSKINS

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Cong.) and Executive Order 10161 (15 F. R. 6105), and in accordance with Economic Stabilization Agency General Order No. 1 (16 F. R. 100), *It is hereby ordered*, That price ceilings on the sale of cattlehides, kips and calfskins shall be effective as provided in this ceiling price regulation.

Statement of considerations. Cattlehides, kips and calfskins are the basic raw materials of the shoe and leather industries. Shoes are one of the most important commodities in the Bureau of

Labor Statistics consumer price index having a total weight 2.0 percent. In addition, present indications are that the Armed Services shoe procurement programs will absorb an increasing percentage of the total available hides. Cattlehides and skins are a by-product of the slaughter of cattle and calves for meat. Changes in their prices have a negligible effect on the marketing of cattle. And the imposition of the heavy military requirements for shoes on top of the normal civilian demand has not, therefore, changed the supply of domestic hides available to tanners. Not only does the increased military procurement add to the demand through an increase in the number of shoes required but the combat boot, which is the principal item, requires three times as much leather per pair as the ordinary civilian style of men's shoes. The result is a bidding up in the prices of leather which does not influence available supplies. Marked increases in shoe prices would be a serious threat to living costs and increase substantially the cost of the defense effort.

Cattlehides and skin prices were relatively stable during the first six months of 1950. Shortly after the outbreak in Korea they advanced rapidly. Prices of large packer cattlehides increased from 25 percent to 45 percent in the three months of July, August and September. Calfskin and kip skins advanced approximately 21 percent to 26 percent respectively in the same interval. In subsequent months there was some moderation in the rate of advance of these prices. However, during the last weeks of 1950 and the early weeks of 1951 there again occurred sharp and substantial increases in prices in cattlehides and skins caused in part by the announcement on December 21, 1950, of the Department of Defense procurement program of approximately thirteen million pairs of footwear. Some types of packer hides have increased as much as 17 percent in the last 30 days. Increases in prices of small packer and country hides and skins have been much greater. The demand has been such that the customary differentials between different qualities of hides and skins have become distorted. Small packer hides which customarily sell below large packer hides because of their generally poorer quality, are now commanding premiums over large packer hides. These advances have occurred notwithstanding appeals by the Economic Stabilization Agency for voluntary compliance to pricing standards which, had they been followed, would have avoided many of the ensuing price increases. They have had a serious disturbing effect on leather and shoe prices. It, therefore, becomes apparent that the public interest requires that maximum prices be established for hides and skins covered in the existing regulation.

This regulation establishes as the maximum price for producers and hide dealers the highest price at which they sold or delivered each kind, type, quality, weight, grade and trim of hide or skin during the period November 1 to November 30, 1950. Where they did not sell or deliver hides or skins, the same as those

they sold or delivered in November 1950, sellers are directed to apply an "in-lining" technique. This period, November 1 to November 30, 1950, was chosen because it is believed that the customary price differentials between different types, qualities, and weights of hides and between different classes of sellers were in effect at this time. Distortion arose during the month of December 1950 and became accentuated during the early weeks of January 1951. The maximum prices established by this regulation are generally fair and equitable to sellers and buyers. Before establishing these prices the level of prices prevailing in the industry during the period May 24 to June 24, 1950, was considered. Although the prices of cattlehides, kips and calfskins rose rapidly following the Korean invasion, similar movements occurred in the prices of other commodities and processed agricultural products. With a leveling out in the rate of advances during the latter part of September, October and November distortions that arose during the preceding up-swing were largely eliminated. The cattlehide and calf leather tanners in general were able to adjust selling prices to the new level of hide prices. The time interval between slaughter of the cattle to the sale of the hide in the form of a finished shoe covers a number of months. To roll back hide prices to the May 24-June 24 level with corresponding adjustments at the tannery, shoe manufacturing and shoe retailing levels would be impracticable because of the full pipe-line of higher priced hides and leather. Such is not the case, however, in respect to the recent advances.

Upon the basis of these facts and circumstances and other economic data, the Director of Price Stabilization finds that: (1) Prices for cattlehides, kips and calfskins have risen and threaten to rise unreasonably above the prices prevailing during the period from May 24, 1950, to June 24, 1950; (2) such price increases will materially affect the cost of living and the national defense; (3) the imposition of the ceiling prices established by this regulation is necessary to effectuate the purposes of the Defense Production Act of 1950; (4) it is practicable and feasible to establish ceiling prices for sales of cattlehides, kips and calfskins; (5) such ceilings will be generally fair and equitable to sellers and buyers of cattlehides, kips and calfskins and to buyers and sellers of related and competitive materials and services; and (6) the issuance of this regulation will help to effectuate the purposes of the Defense Production Act of 1950.

In formulating this regulation the Director has consulted with representatives of the industry to the extent practicable under the circumstances, and has given consideration to their recommendations. The regulation, however, has been designed only for temporary use pending development of controls more exactly adapted to the industry.

For reasons set forth in a statement of considerations accompanying an order of the Economic Stabilization Administrator, being issued separately, no regulation has been promulgated to stabilize wages, salaries or other compensation of

employees engaged in producing or selling the products covered by this regulation.

In the opinion of the Director, the accompanying regulations satisfy the requirements of the provisions of the Defense Production Act of 1950 relating to ceilings for agricultural commodities.

The provisions of this regulation and their effect upon business practices, cost practices, or methods, or means or aids to distribution in the industry have been carefully considered. It is believed that no changes in such practices or methods have been effected. To the extent, however, that the provisions of this regulation may operate to compel changes in such practices or methods, such provisions are necessary to prevent circumvention or evasion of the regulation and to effectuate the policies of the act.

313.1 What this part does.

313.2 Ceiling prices.

313.3 Evasion.

313.4 Enforcement.

313.5 Records.

313.6 Petition for amendment.

313.7 Where this part applies.

313.8 Definitions.

AUTHORITY: §§ 313.1 to 313.8 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 313.1 What this part does—(a) What is covered. This part fixes ceiling prices and maximum brokerage commissions for all sales of untanned domestic cattlehides, kips and calfskins.

(b) Who is covered. If you are a person who sells or buys cattlehides, kips or calfskins or acts as a broker in connection with their sale or purchase, this part applies to you.

(c) On or after January 29, 1951, regardless of the terms of any contract of sale or purchase or other commitment or obligation, you shall not sell or deliver or offer to sell or deliver cattlehides, kips and calfskins, whether for immediate or future delivery, and you shall not buy for immediate or future delivery or accept delivery of any cattlehides, kips or calfskins at a price exceeding the ceiling prices permitted by this part.

§ 313.2 Ceiling prices. This part fixes ceiling prices and maximum commissions with reference to prices and commissions during the period November 1, 1950, to November 30, 1950, inclusive (hereafter called the "base period").

(a) Same cattlehide, kip or calfskin. Your ceiling price for the sale of any cattlehide, kip or calfskin is the highest price at which you sold or delivered the same cattlehide, kip or calfskin during the base period. One cattlehide, kip or calfskin is the same as another when it is of the same kind, type, quality, weight, grade and trim.

(b) Cattlehide, kip or calfskin which is not the same. If the cattlehide, kip or calfskin you are pricing is not the same as any which you sold or delivered during the base period your selling price is a price in line with the selling price of the most closely related cattlehide, kip or calfskin which you sold or delivered during the base period. You determine your in-line selling price by

taking your selling price for the most closely related cattlehide, kip or calfskin which you sold or delivered in the base period and by adjusting that price to reflect your customary differentials in the base period for the differences between it and the cattlehide, kip or calfskin you are pricing. If you had no such differentials you shall make your adjustments on the basis of the differentials customary in the industry during the base period.

(c) Customary practices. You must continue to grant all discounts, price differentials, or other allowances, including tare or grub allowances, granted by you in the base period. If you had no such differentials you must use the customary differentials in the industry in the base period. No seller shall require any purchaser and no purchaser shall be permitted to pay a larger proportion of the charges for transportation, handling, or other charges than the seller required a purchaser of the same class to pay during the base period for the same cattlehides, kips or calfskins.

(d) Brokers' commissions. A broker may not charge a commission in excess of that customarily charged by him in the base period. If a broker is employed to sell or buy cattlehides, kips or calfskins, such brokerage commission may be added to the applicable ceiling price otherwise established under this part.

(e) Application for ceiling price or maximum commissions. If no other provision of this section affords you a means of fixing your ceiling price or maximum commission you shall file an application in writing with the Economic Stabilization Agency, Washington 25, D. C., for approval of a proposed ceiling price or maximum commission. Your application shall state your name and your business address. If it relates to the pricing of a cattlehide, kip or calfskin it shall contain a complete description of that cattlehide, kip or calfskin, the ceiling which you propose, the class of purchaser to whom you will sell, the terms of sale and the price charged by your closest competitors on such sales. In the case of an application for a maximum commission your application shall propose a commission rate and give information showing why it is in line with the commission rates established under this part. A cattlehide, kip or calfskin for which a ceiling price is proposed under this section may not be sold until the price has been approved by the Director of Price Stabilization but the proposed price shall be deemed to be approved twenty (20) days after the mailing of the application (or all additional information which may have been requested) unless, within that time the Director notifies you that your proposed price has been disapproved.

(f) The Director may at any time approve, disapprove or revise ceiling prices proposed or established under this part.

§ 313.3 Evasion. You shall not evade or circumvent the provisions of this part by direct or indirect methods in connection with the sale, purchase, delivery, or transfer of cattlehides, kips and calfskins, alone or in conjunction with any other commodity or material, or by way of any commission, service, transporta-

tion charge, or other charge, or discount, premium, or other privilege, or by upgrading, tying-agreement, trade understanding, or otherwise.

§ 313.4 *Enforcement.* If you violate any provision of this part you are subject to the criminal penalties, civil enforcement actions, and suits for damage provided for by the Defense Production Act of 1950.

§ 313.5 *Records.* If you sell cattlehides, kips or calfskins for which ceiling prices are established by this part you must have the following records:

(a) *Base period records.* (1) You must preserve for examination by the Office of Price Stabilization all existing records relating to the prices at which you sold or delivered cattlehides, kips and calfskins in November 1950, and (2) you must prepare on or before February 19, 1951, on the basis of all information and records available to you and thereafter hold for examination by the Office of Price Stabilization, a statement showing:

(i) The highest price which you charged for each kind, type, quality, grade, weight, and trim of cattlehide, kip and calfskin sold or delivered by you in the base period, together with an appropriate description or identification of each such cattlehide, kip or calfskin;

(ii) All your customary allowances, discounts, and other price differentials during the base period.

(b) *Current records.* You must keep and make available for examination by

the Office of Price Stabilization records of the same kind as you customarily have maintained relating to the prices which you charge for cattlehides, kips and calfskins sold or delivered after the effective date of this regulation, and, in addition, (1) records, showing as precisely as possible, the basis upon which you determined your ceiling prices for those cattlehides, kips and calfskins, and (2) a copy of each invoice or similar document delivered in connection with a purchase or sale of cattlehides, kips and calfskins.

§ 313.6 *Petitions for amendment.* If you wish to have this part amended you may file a petition for amendment in accordance with the provisions of Part 300 of this chapter (Price Procedural Regulation 1, 15 F. R. 9055).

§ 313.7 *Where this part applies.* This part applies in the forty-eight states and the District of Columbia.

§ 313.8 *Definitions.* As used in this part (a) "person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(b) "Cattlehides, kips or calfskins" means hides and skins of domestic cattle of the bovine species.

(c) "Domestic" means originating from the continental United States.

(d) "Broker" means any person who acts on behalf of a principal in connection with the collection, sale, purchase, receipt or shipment of cattlehides, kips or calfskins.

(e) All other trade terms used in this part shall have the meanings generally accepted in the trade.

(f) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and contracts and offers to do any of the foregoing. The terms "sale," "selling," "sold," "seller," "buy," "purchase," and "purchaser," shall be construed accordingly. Nothing in this part shall be construed to prohibit the making of a contract to sell cattlehides, kips or calfskins at a price not to exceed the maximum price at the time of delivery.

(g) "Delivered." A cattlehide, kip or calfskin shall be deemed to have been delivered during November 1950 if, during such month, it was received by the purchaser or by any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser.

Effective date. This part shall become effective on the 29th day of January 1951.

NOTE: The record keeping and reporting requirements of this part have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. The amendments proposed have not received the approval of the Secretary of Agriculture.

The following amendments have been proposed by the Pure Milk Association:

Proposal No. 1. Delete the words "and butterfat" from § 967.41 (a) (2).

Proposal No. 2. Amend § 967.41 (b) to read as follows:

(b) Class II milk shall be (1) all skim milk and butterfat disposed of as fluid cream (sweet or sour), any fluid cream product containing not less than six percent (6%) butterfat, butter cream, filled cream, egg nog, yogurt and cottage cheese, and (2) shrinkage on receipts of producer butterfat computed pursuant to § 967.42 which is in excess of two percent (2%) of such receipts and all butterfat not specifically accounted for as any item under subparagraph (1) of this paragraph on Class I, Class III or Class IV butterfat.

Proposal No. 3. Amend § 967.46 (b) to read as follows:

other source milk, excluding that subtracted pursuant to paragraph (a) of this section.

Proposal No. 4. Amend § 967.50 (d) and (e) to read as follows:

(d) From the highest of the prices resulting from paragraphs (a), (b) and (c) of this section, for the next preceding delivery period deduct the value of 96.5 pounds of Class IV skim milk for the current delivery period, as computed under § 967.53 (b). Divide the result by 3.5 and the result shall be known as the basic formula price per pound of butterfat.

(e) The basic formula price per hundredweight of skim milk shall be the same as that computed under § 967.53 for Class IV skim milk.

Proposal No. 5. Amend § 967.51 to read as follows:

§ 967.51 *Class I and Class II milk prices.* The minimum prices to be paid by each handler for skim milk and butterfat in producer milk classified as Class I milk and Class II milk, shall be determined by adding the following amounts to the respective basic formula prices for skim milk and butterfat for the delivery period.

(b) The per hundredweight skim milk value of Class III milk shall be the same as that determined for the Class IV price under § 967.50 (e). The price per pound of butterfat in Class III milk shall be determined as follows:

(c) From the price determined under paragraph (a) of this section deduct the value of 96.5 pounds of Class III skim milk. Divide the remainder by 3.5 and the result shall be known as the price per pound of butterfat in Class III milk.

Proposal No. 7. Delete § 967.52 (d) and (e).

Proposal No. 8. Amend § 967.53 to read as follows:

§ 967.53 *Class IV milk prices.* The minimum prices per hundredweight to be paid by each handler for skim milk and butterfat in producer milk received and classified as Class IV milk, shall be determined as follows:

(a) Multiply the average of the daily wholesale prices per pound of 92-score butter at Chicago, Illinois, during the delivery period as reported by the Department by 1.2, which amount shall be known as the Class IV price per pound of butterfat.

(b) Multiply the Class IV price per pound of butterfat by 3.5. Deduct the amount arrived at from the price resulting from the formula under § 967.50 (c). Divide this result by 0.965, which amount

shall be known as the Class IV price per hundredweight of skim milk.

Proposal No. 9. Amend § 967.60 to read as follows:

§ 967.60 *Exempt milk.* Skim milk and butterfat disposed of as Class I and Class II milk on a route in the marketing area shall not be subject to the provisions of this order, if

NOTICE OF APPLICATION

JANUARY 22, 1951.

Take notice that on January 11, 1951, Delaware Power & Light Company (Applicant), a Delaware corporation with its principal place of business in Wilmington, Delaware, filed an application pursuant to section 7 (b) of the Natural Gas Act to abandon the transportation of natural gas in interstate commerce to the Chester County Light and Power Company, and to abandon such facilities

used in connection therewith to the extent that they are now used in such transportation.

Delaware Power & Light Company recites in its application that it desires to discontinue the transportation of gas to Chester County Light and Power Company in order that it may convert its full pipeline capacity of all of its facilities now partially used for such transportation, to supply gas to its customers, and that such utilization would result in better service to its customers.

The application points out that Philadelphia Electric Company is filing an application for a certificate of public convenience and necessity for authority to construct and operate certain proposed natural gas facilities described for the purpose of transporting and delivering direct to the pipeline facilities of Chester the natural gas sold in interstate commerce by Philadelphia Electric Company to Chester for resale,¹ which natural gas is now being transported by Applicant.

The application is on file with the Commission for public inspection. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) before the 12th day of February 1951.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 9889]

AMERICAN TELEPHONE AND TELEGRAPH CO.
AND THE ASSOCIATED COMPANIES OF THE
BELL SYSTEM

ORDER INSTITUTING INVESTIGATION

In the matter of rates and charges for interstate and foreign communication services furnished by the American Telephone and Telegraph Company and the Associated Companies of the Bell System.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 19th day of January 1951;

The Commission, having under consideration the level of earnings of the Long Lines Department of the American Telephone and Telegraph Company and the Associated Companies of the Bell System, listed in Attachment A hereof, from interstate and foreign communication services; and the specific rates and rate relationships in the existing message toll telephone rate schedules;

It appearing, that according to information contained in reports received by the Commission from the above-mentioned companies, as summarized in Attachment B hereof, said companies are earning upon the reported book cost of their telephone plant devoted to interstate and foreign communication services, less depreciation and amortization reserves, at a rate of more than 7.0 percent after all taxes;

It further appearing, that the most recent reports of the earnings of said companies indicate an upward trend in their level of earnings from interstate and foreign communication services;

It further appearing, that in view of such high level of earnings, and the

above-mentioned trend thereof, and with due regard to the higher Federal income tax rates applicable in 1951, the rates and charges for interstate and foreign communication services furnished by the above-named companies may be so high as to be unjust and unreasonable and unduly burdensome upon the public;

It further appearing, that consideration should be given to the need and desirability for adjustments in specific rates and rate relationships in the existing interstate message toll telephone rate schedules;

It is ordered, That pursuant to sections 201, 205 and 403 of the Communications Act of 1934, as amended, an investigation is hereby instituted into the justness and reasonableness of the rates and charges for interstate and foreign communication services which are furnished by the above-named companies, and into the need and desirability for adjustments in specific rates and rate relationships in the existing interstate message toll telephone rate schedules;

It is further ordered, That each of the above-named companies is hereby made a party respondent to this proceeding, and shall appear and show cause why, on the basis of the data summarized in Attachment B hereof, (1) the Commission should not find that the existing rates and charges for and in connection with interstate and foreign communication services furnished by said respondents are or will be unjust and unreasonable; and (2) an interim reduction in earnings through appropriate adjustments in rates and charges should not be ordered to be made, pending conclusion of the proceedings of investigation;

It is further ordered, That respondents shall file with this Commission on or before the 23d day of March 1951, their answer or answers to this order, verified by the person or persons having personal knowledge of the facts alleged therein;

It is further ordered, That hearings be held in this proceeding at the offices of the Commission in Washington, D. C., beginning at 10:00 a. m. on the 16th day of April 1951; and that the Commission's telephone committee or any member or members thereof shall preside at said hearings and, at the conclusion of the show cause aspect thereof, shall issue an initial decision;

It is further ordered, That a copy of this order shall be served upon each of the above-named respondents; upon the Governors of the States of Iowa and Texas; upon the commission, board, or official of each of the other States and of the District of Columbia which has regulatory jurisdiction with respect to rates and charges for communication services; upon the National Association of Railroad and Utilities Commissioners; and upon the United States Independent Telephone Association.

² Includes service pension accruals accounted for by charge to account 323 and also includes operating taxes except Federal income taxes.

³ Federal income taxes are computed at a 28 percent tax rate for 1949 and a 42 percent tax rate for the 1950 period. Taxable income is computed by allocating to interstate operations the same proportion of total interest expense of the Bell System (including Southern New England Telephone Co. and Cincinnati & Suburban Bell Telephone Co.) as book cost of telephone plant allocated to interstate operations is of total telephone plant of the Bell System (including SNET and C&S). It is assumed that 87 percent of the earnings of the associated companies which are available for dividends is paid out as dividends, and that 95.36 percent of these dividends accrues to A. T. & T. Co. For purposes of this statement, allowance is made in taxable income for the 15 percent of such dividends which will be taxable income to A. T. & T. Co.

⁴ Annual basis; at a 47 percent Federal income tax rate, this ratio would be 6.81 percent.
